

Eckington House Mental Health Services, LLC is a community-residential program developed for the int

---

## Mission/Vision

The Eckington House is dedicated to meeting the needs of individuals by providing a rehabilitative environment that will promote growth and development with the best opportunity for normalization in the least restrictive environment. Moreover, individuals will be provided an opportunity for integrated community-based living, learning centers and work sites that meet their individual needs. The Eckington House will provide individuals with a positive and supportive environment that nurtures and integrates their living, working and learning opportunities in the community.
